

## **Packet Digital LLC Hires New Corporate Controller**

Fargo, North Dakota, 01/20/06

Packet Digital LLC, an innovator in the fields of advanced power management, smart RFID, and wireless solutions, is pleased to announce that Holly Jorud has joined the company as Corporate Controller, reporting directly to the President and CEO. In this capacity Jorud will assume responsibility for accounting, finance, and human resource activities.

An experienced Certified Public Accountant, Jorud has held past positions with Ernst & Young and other various public, private industry, and non-profit organizations. She is an active participant in the community, with involvement in local non-profit and community groups. “We are excited to have Holly join Packet Digital LLC. She brings tremendous experience and talent to the position, and she can lead our financial teams as we continue to grow and develop intellectual property and products” said Joel Jorgenson, President and CEO.

Jorud is a graduate of Minnesota State University, Moorhead.

### **About Packet Digital LLC**

Packet Digital LLC is an innovator in the design and development of advanced power management, smart radio frequency identification (RFID), and wireless solutions. We focus on utilizing our intellectual property to create solutions that match specific customer needs.
